REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicant's declaration under 37 CFR 1.132 has demonstrated that the products of the prior art (Sato and Tenbrink) are not the same as the presently claimed product. Applicant's declaration showed that the method limitations requiring oxidation at a pressure of 3-5 atm produce a physically different product from the products of Sato and Tenbrink, which are oxidized at 1 atm of pressure. Thus, Applicant has shown that the products of Sato and Tenbrink are different. Therefore, the present claims are allowable over the prior art since the prior art does not teach or suggest the presently claimed product.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
